16-Port Gigabit Switch

TEG-S160TX(D1.0R)

TEG-S160TX is a high performance 16-port rack mountable Copper Gigabit Switch. With auto-negotiation technology, the TEG-S160TX automatically negotiates between 10Base-T, 100Base-TX and 1000Base-T network speeds, as well as half and full duplex modes. The Auto-MDIX feature on each port automatically detects and adjusts connection type with either straight-through or crossover cable. Providing simple migration, scalability, and flexibility to handle new applications and data types, TRENDnet's TEG-S160TX is a highly reliable and cost effective solution for high-speed network applications.
