2. How to Install

Note: Please turn on your computer and follow the instructions below.

1. Connect the TEW-429UF into your computer's USB port.

<u>Note:</u> TRENDnet's Wireless Adapters have been fully tested under all supported Windows Operating Systems and have been approved for their functionality.

6. Click Next.

3. Using the Wireless Adapter

Note: We recommend that you restart your computer before using the TEW-429UF.

Your installation is now complete.

Note: For more detail on advanced features, please consult the User's Guide.

Q1: I completed all the steps in the quick installation guide, but my wireless USB Adapter isn't connecting to my access point. What should I do?

A1: First, you should verify that the Network SSID matches your wireless router or access point's SSID. Second, you should check your TCP/IP properties to ensure that Obtain an IP address automatically is selected. Third, you can click on the Site Survey link to check and see if there are any available wireless networks listed.

Q2: Windows is unable to recognize my hardware. What should I do?

A2: Make sure your computer meets the minimum requirements as specified in Section 1 of this quick installation guide. Also, you must install the wireless configuration utility before connecting the wireless USB Adapter.

Q3: I cannot open the wireless configuration utility. What should I do?

A3: Go to your device manager (control panel \rightarrow system) to make sure the adapter is installed properly. If you see a networking device with a yellow question mark or exclamation point, you will need to reinstall the device and/or the drivers.

If you still encounter problems, please refer to the User's Guide CD-ROM or contact technical support.
