

TEW-624UB Supplement

Date: July 3, 2007

TEW-624UB Hardware version A1.0R
CD-ROM Version: 1.1 (previous version 1.0)
Driver Provider: Marvell
Driver Version: 1.0.4.9
Date: 11/27/2006

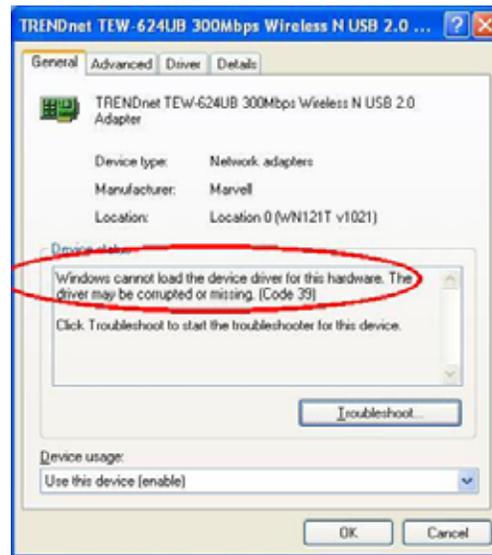

Included "TEW-624UB Uninstall" "ClearProgram" file.

Release Note:

1. Fixes "in Windows XP, installing driver/utility using CD-ROM version 1.0 causing "error code 39" at the end of the installation". This is caused by XP taken incorrect driver from the CD-ROM. This error does not occur, if customer removed the CD-ROM before inserting the TEW-624UB to the computer's USB port.

Error message at the end of the installation using CD-ROM version 1.0.

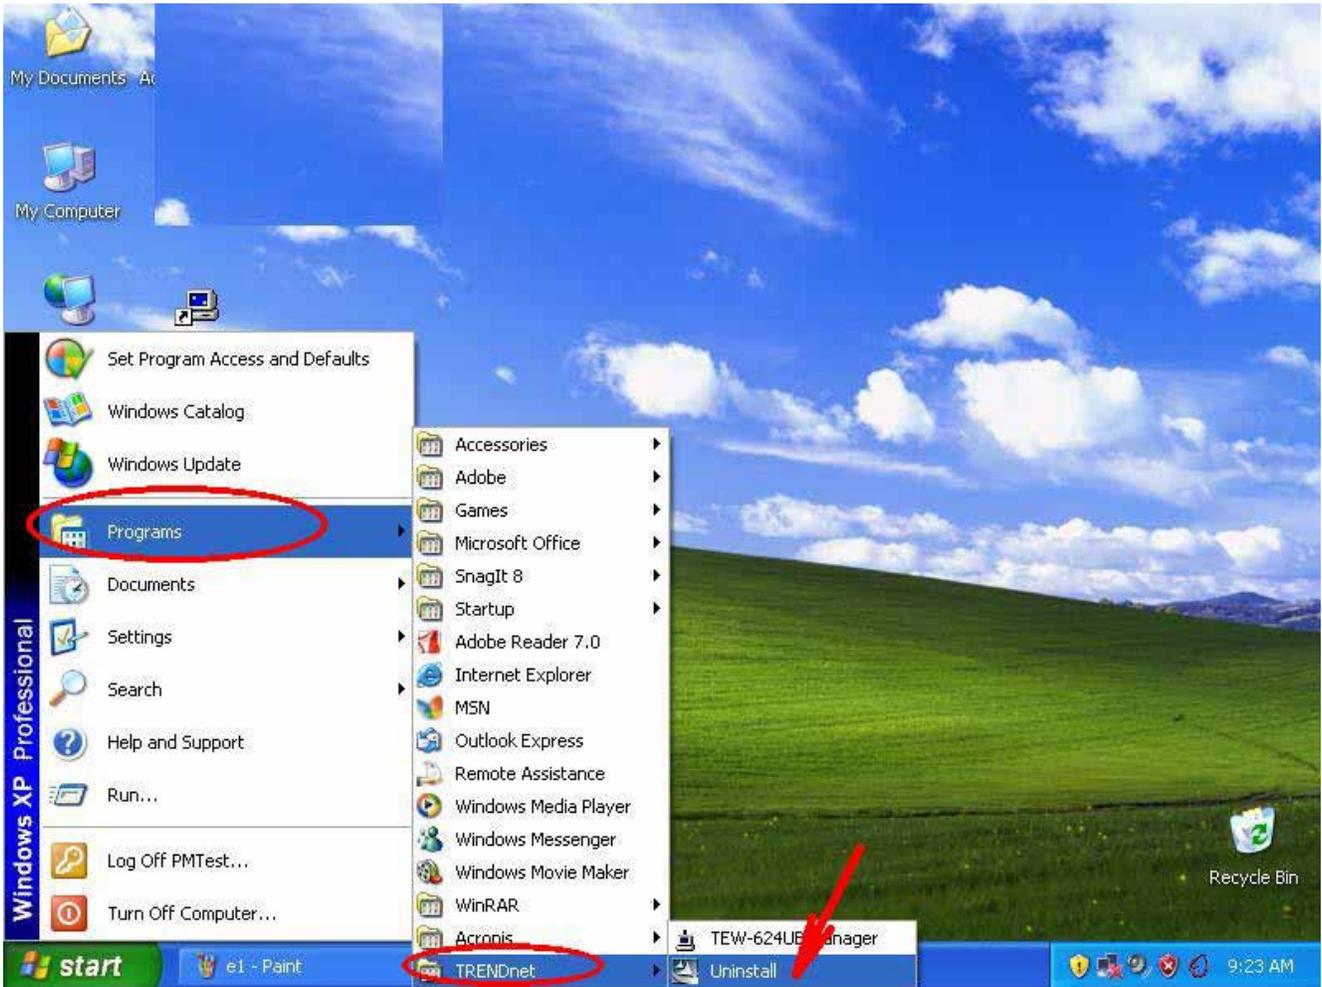

Error message in "Device Manager".

Procedures:

Please disable Windows Firewall and any other firewall software that are running on the computer.

1. Boot up the XP computer with or without the TEW-624UB (Adapter) installed in the computer's USB port.
2. From the computer's Desktop, Click on "Start", move the cursor to "Programs", to "TRENDnet", and then click on "Uninstall".

3. Click on “Yes”.

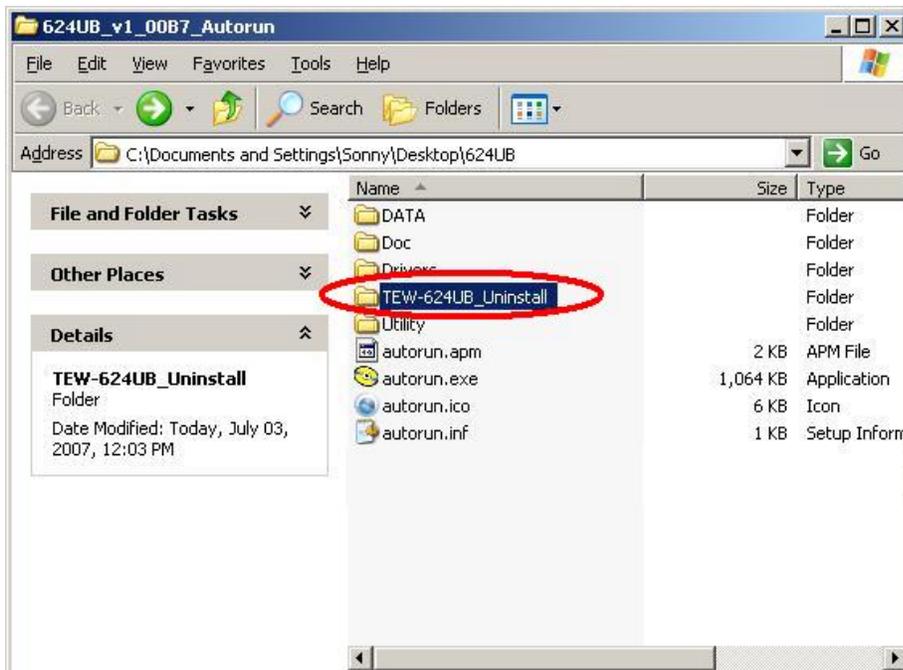

4. Remove TEW-624UB from the computer, remove any driver/installation CD-ROM from the CD-ROM Drive, from the screen, select “Yes, I want to restart my computer now”, and then click on “Finish”.

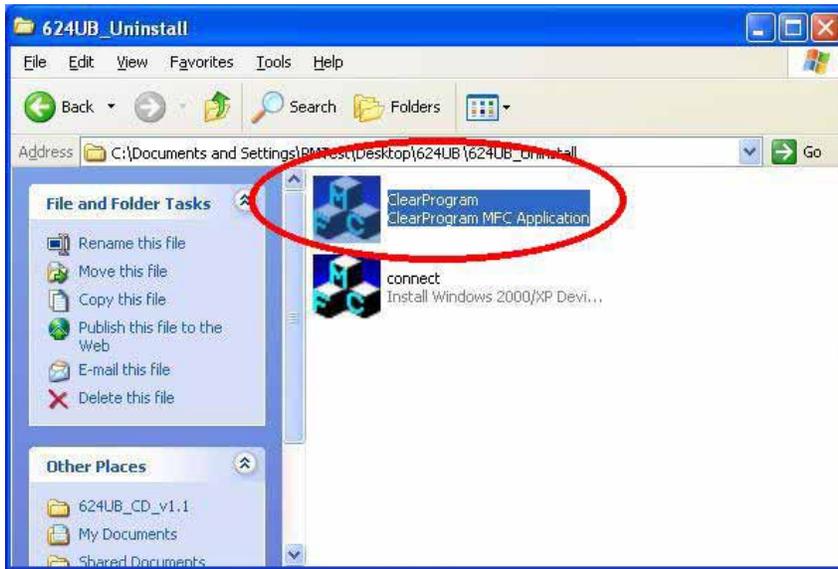

Please do not insert the TEW-624UB back to the computer until instructed to do so.

5. After the computer boots up, go to the TEW-624UB’s new Driver/Utility folder (the one that you unzipped the new driver/utility files), and open “TEW-624UB_Uninstall” folder.

6. Double-click on “ClearProgram” to run it.

7. Click on “Clear”.

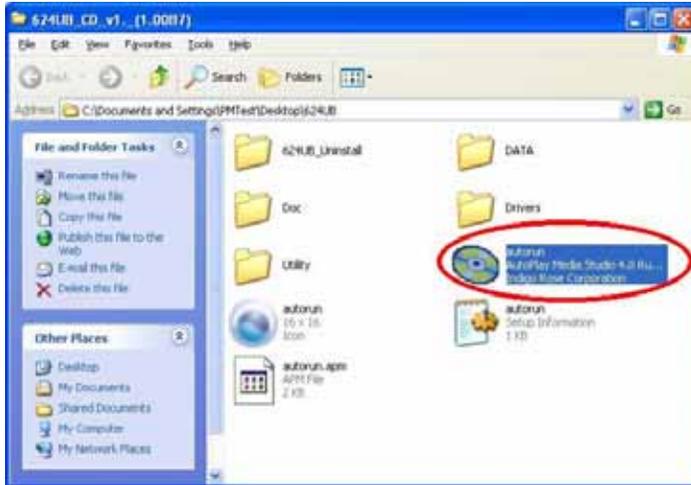

8. Click on “Exit”.

9. Restart the computer.

Please do not insert the TEW-624UB back to the computer until instructed to do so.

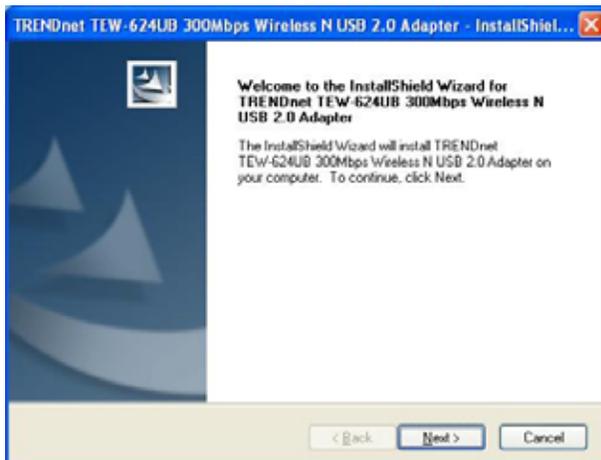

9. After the computer boots up, go to the TEW-624UB's new Driver/Utility folder, double-click on "Autorun" to go to the menu.

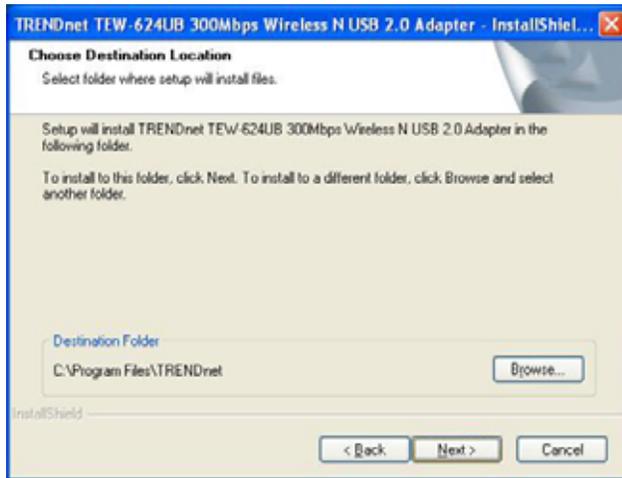

10. Click on "Install Driver & Utility".

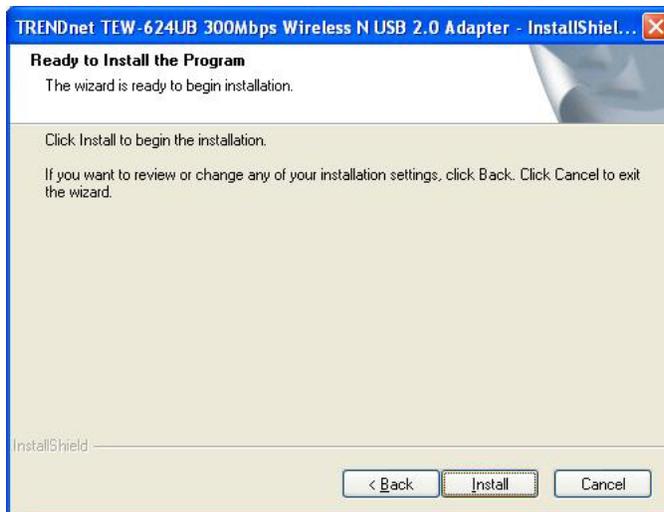

11. Click on "Next".

12. Click on “Next”.

13. Click on “Install”.

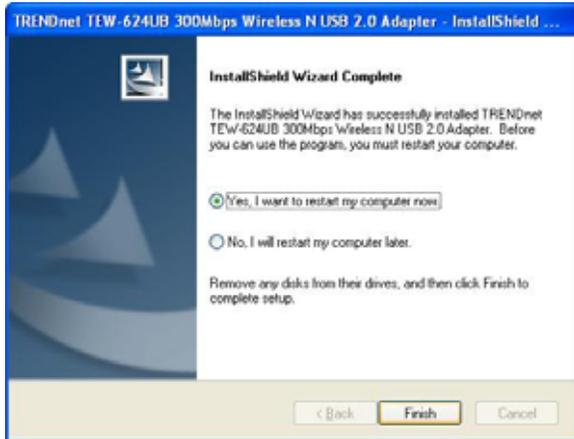

14. Click on “Continue Anyway”.

15. Select “Yes, I want to restart my computer now.” and click on “Finish” to restart the computer.

16. After the computer boots up completely, insert the TEW-624UB to any available USB port on the computer and the “Found New Hardware Wizard” should pop up on the screen.

17. Select “No, not this time” and click on “Next”.

18. Select “Install software automatically (Recommended)” and click on “Next”.

19. Click on “Continue Anyway”.

20. Click “Finish” to complete the installation.

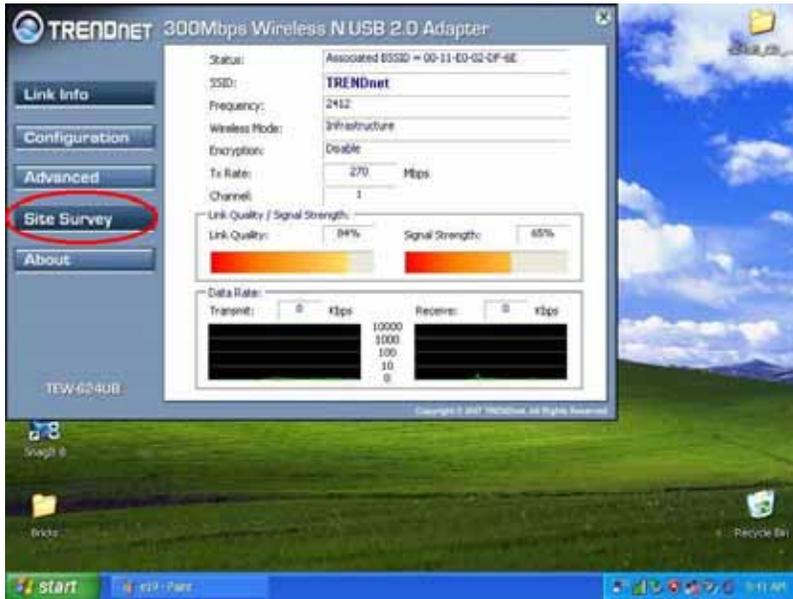

21. After the installation, you should see the TEW-624UB Manager Utility icon in the “TaskBar”.

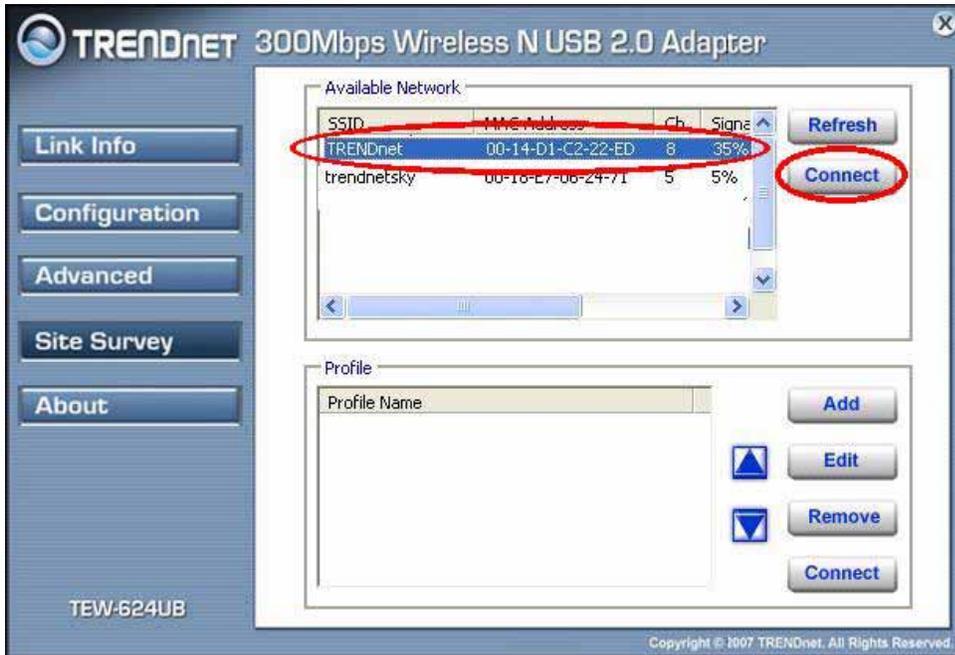

22. Click on the utility icon to open the Manager Utility and then click on “Site Survey”.

23. Under the “Available Network”, click on the Wireless Device that you would like to connect and click on “Connect”. If the Wireless Device that you are connecting has encryption enabled, you would need to enter the correct encryption key to connect to it.

The end of the document.
