**Firmware Upgrade Procedure**

1. Save the zipped firmware file to your PC.
2. Extract the .zip file to your PC.
3. Go to router's configuration page (default IP address in router mode is 192.168.10.1)
4. Click on the **System** section in the left hand panel and click on **Firmware**

5. Click **Browse** and navigate to the unzipped folder with the firmware file (.bin) and select it.
6. Click the **Apply** button
7. Wait until the firmware upload is completed and the device reboots

Important! Do not turn off the device or press the reset button while this procedure is in progress.
