## Product Overview

**TEW-737HRE**

## Features

TRENDnet's N300 High Power Easy-N-Range Extender, model TEW-737HRE, offers extreme wireless coverage to eliminate existing wireless network dead spots. Setup takes minutes with no CD installation and it stays out of the way by plugging directly into an outlet. Simply press the Wi-Fi Protected Setup (WPS) button on your router, then on the TEW-737HRE and you're done—it's now extending your wireless network over a large area.

## Ease of Use

### *Easy Setup*

No CD installation—simply plug in the extender, scan for your wireless router, and connect

### *No Clutter*

The compact form factor stays off the ground by plugging directly into an outlet

### *One Touch Connection*

Securely extend your wireless network at the touch of the Wi-Fi Protected Setup (WPS) button

## Security

### *Encrypted Wireless*

Supports the latest encryption and automatically adopts router settings

## Performance

### *Extreme Coverage*

High power amplifiers and multiple antenna technology offer extreme wireless coverage

### *N300 Wireless*

Proven 300 Mbps Wireless N

### *Ethernet Port*

Ethernet port for easy management access

### *Compatibility*

Works with all Wireless N router brands

*\*Maximum wireless signal rates are referenced from IEEE 802.11 theoretical specifications. Actual data throughput and coverage will vary depending on interference, network traffic, building materials and other conditions.*

## Package Contents

TEW-737HRE package includes:

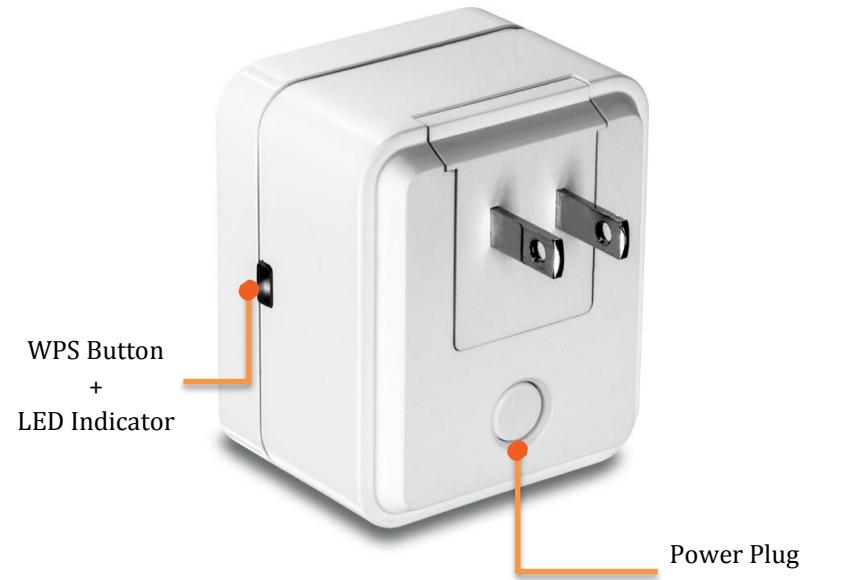

- TEW-737HRE
- Multi-Language Quick Installation Guide
- CD-ROM (User's Guide)

*If any package content is missing or damaged, please contact the retail store, online retailer, or reseller/distributor from which the product was purchased.*

## Hardware Features

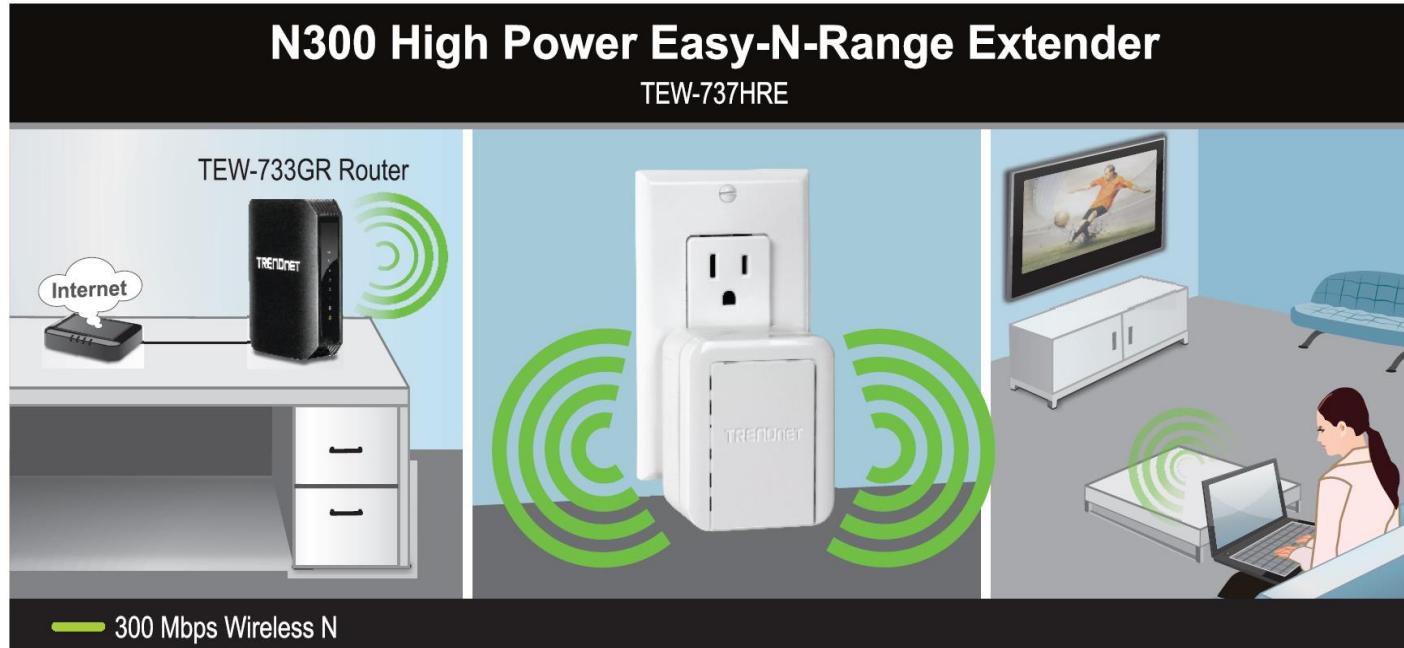

<b>Network Port</b>	Connect a network cable (Ethernet cable) to your computer for repeater configuration.
<b>Reset Button</b>	Resets your repeater. Push and hold this button for 5 seconds with a pin or paper clip to reset configuration to factory default.
<b>On/Off Switch</b>	Switch the On/Off button to turn on or turn off your repeater.

<b>WPS (Wi-Fi Protected Setup) Button + LED Indicator</b>	Push and release the WPS button to activate WPS copying wireless settings from your router. The LED indicator will start blinking in green when WPS pairing is activated.
<b>Power Plug Release Button</b>	To exchange different style of power plug. (This package comes with only one power plug.)

## Application Diagram

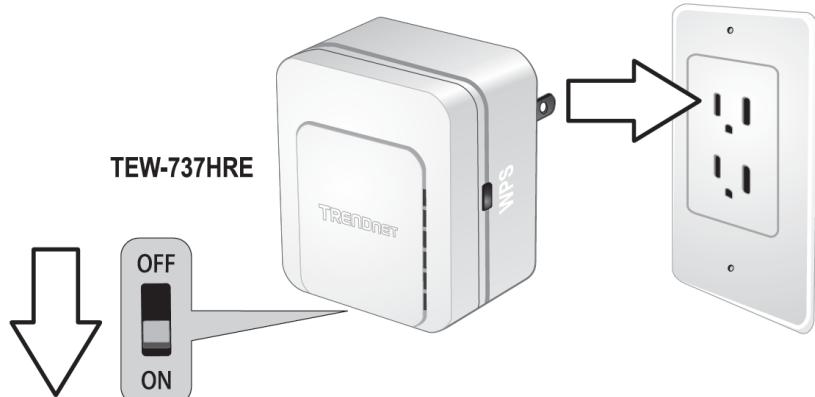

TEW-737HRE is a high power repeater which can extend your wireless router's range or coverage. Install TEW-737HRE at a location in between wireless router and your computer.

## Setting Up

There are two ways of setup: by pushing Wi-Fi Protected Setup (WPS) button or web browser configuration.

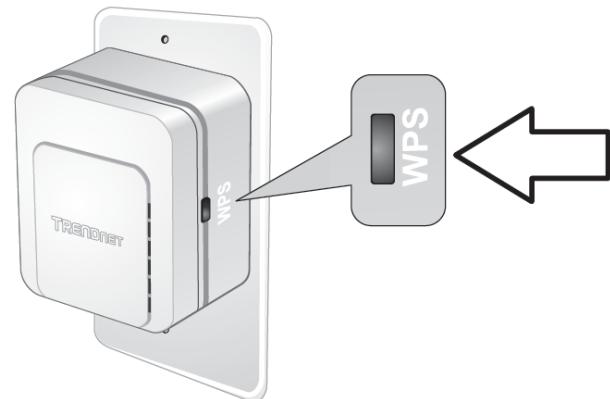

### WPS Connection

1. Plug in the TEW-737HRE to a power outlet nearby your wireless router and switch the device on.

The LED indicator will start blinking in red, it means the system is booting up. When the LED blinking in amber, the TEW-737HRE is ready for setup.

2. Press and release the WPS button on the repeater. The LED will blink in green, which means the TEW-737HRE has begun WPS pairing.

3. Press and hold the WPS button on the router for 5 seconds to start WPS pairing.

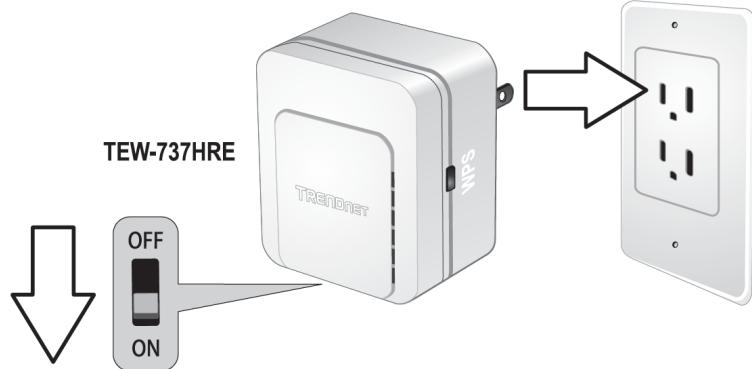

4. The LED will change to solid green once the WPS connection is established.

5. (Optional) Relocate the TEW-737HRE and plug at a location between wireless router and your computer.

## Web Browser Configuration

1. Plug in the TEW-737HRE to a power outlet nearby your wireless router and computer, then switch the device on.

The LED indicator will start blinking in red, which means the system is booting up. When the LED blinking in amber, the TEW-737HRE is ready for setup.

2. Open your computer's wireless network settings and search available wireless networks for **TRENDnet737**. No security password is required. The wireless encryption security will be setup in following steps.

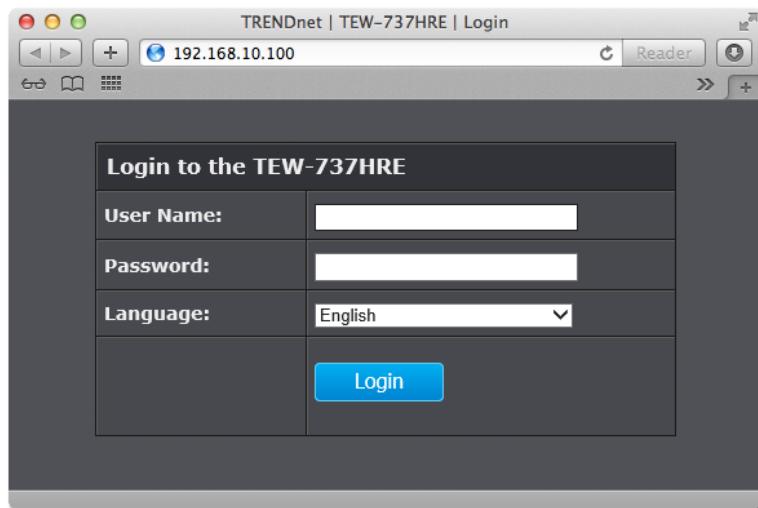

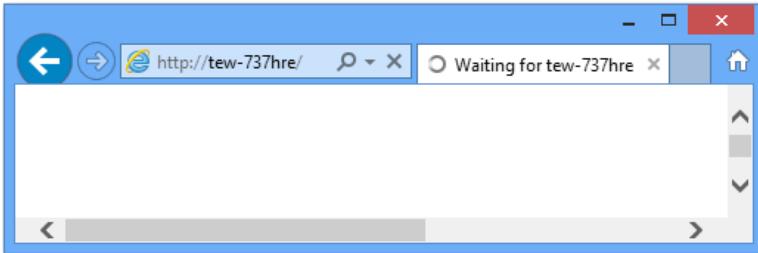

Or,

Connect a network cable (not included in the package) from your computer to the TEW-737HRE's network port.

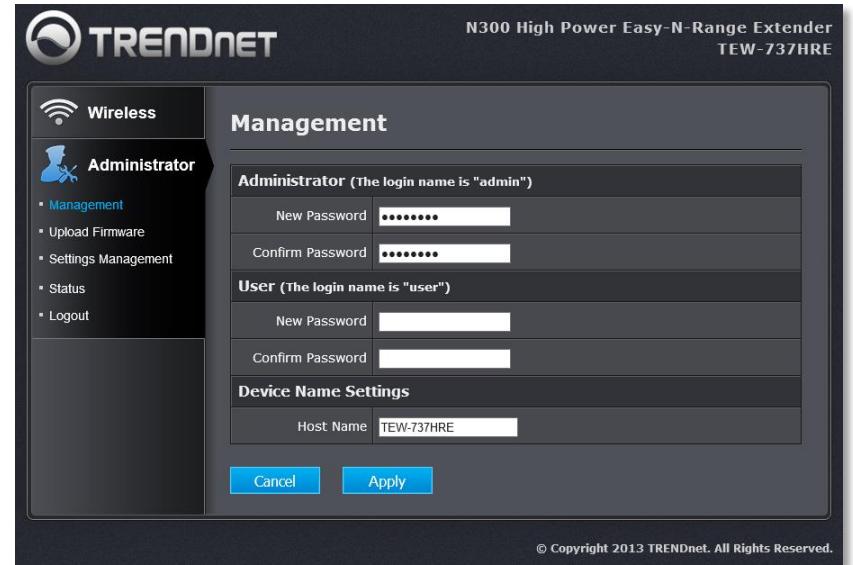

3. Open the web browser and type **http://tew-737hre** or **http://192.168.10.100** to access the administration page. (See trouble shooting page if you cannot access the administration page.)

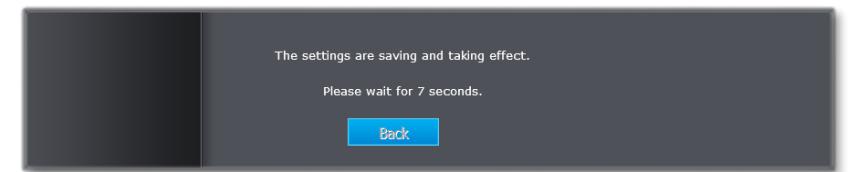

Enter administrator login information. (The default user name is **admin** and the password is **admin**.)

4. Change your administrator password from the factory default setting. Click **Apply** to continue.

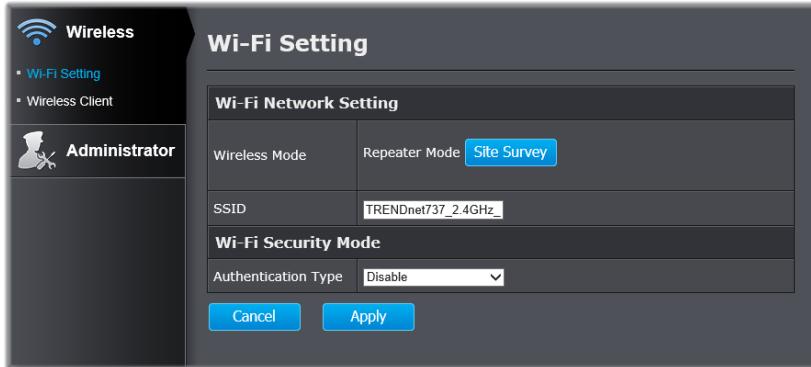

5. TEW-737HRE will apply the password change and then reboot. Click **Back** and login again with your new password.

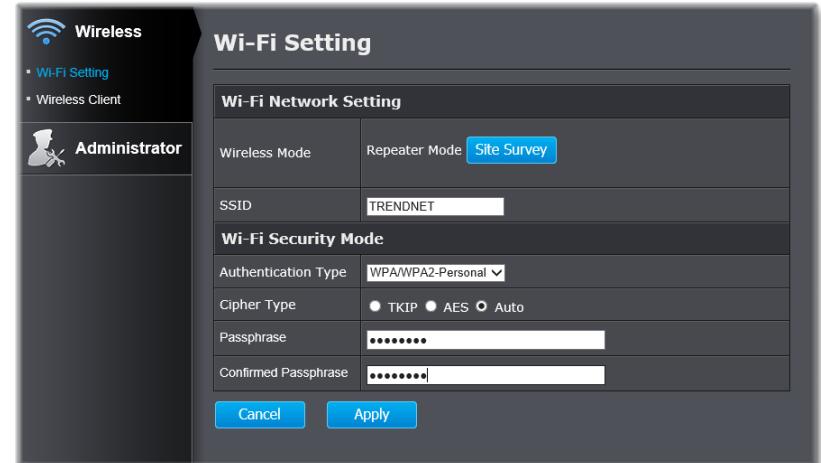

\* Make sure you are still connecting to the default SSID: **TRENDnet737** after device reboots.

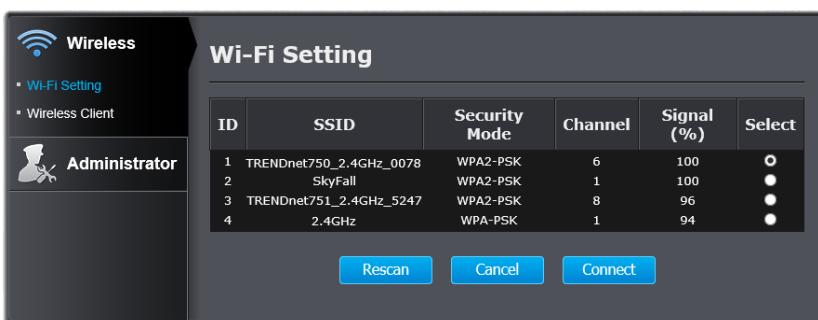

6. Click **Site Survey** to look for the wireless router or access point you want to connect with. (If you want to setup the connection manually, just enter the SSID and skip site survey, go to step 8 directly.)

8. Select authentication type and enter pass phrase and then click **Apply**.

7. Select the wireless router or access point you want to connect with and then click **Connect**.

9. TEW-737HRE will reboot to apply the change. The LED will cycle through flashing red, flashing amber, and then turn to solid green once the connection is established.

10. (Optional) Relocate the TEW-737HRE and plug at a location between wireless router and your computer.

## Management

### Multi-Language

Select your preferred language in the TEW-737HRE login page.

The screenshot shows the login interface for the TEW-737HRE. It has fields for 'User Name' (admin) and 'Password' (redacted). Below these, a 'Language:' dropdown menu is open, displaying options: English (selected and highlighted in blue), Spanish, German, Russia, and French.

### Wireless Client

Click **Wireless Client** on the menu to list associated wireless clients.

The screenshot shows the 'Wireless Client' section of the management interface. On the left, a sidebar lists 'Wi-Fi Setting' and 'Wireless Client' (which is selected and highlighted in blue). On the right, a table displays one client entry: 'Connected Time' (00:14:10) and 'MAC Address' (00:14:d1:d9:d4:01). A user icon labeled 'Administrator' is also visible.

### Wi-Fi Setting

Click **Wi-Fi Setting** on the menu. The default TEW-737HRE Wi-Fi setting will show up. You can change the setting or copy Wi-Fi setting from wireless router by clicking Site Survey. (See **Setup** section for details.)

The screenshot shows the 'Wi-Fi Setting' configuration page. The sidebar on the left shows 'Wi-Fi Setting' is selected. The main area contains 'Wi-Fi Network Setting' (Wireless Mode: Wireless Mode, Repeater Mode: Site Survey, SSID: TRENDnet737\_2.4GHz) and 'Wi-Fi Security Mode' (Authentication Type: Disable). At the bottom are 'Cancel' and 'Apply' buttons.

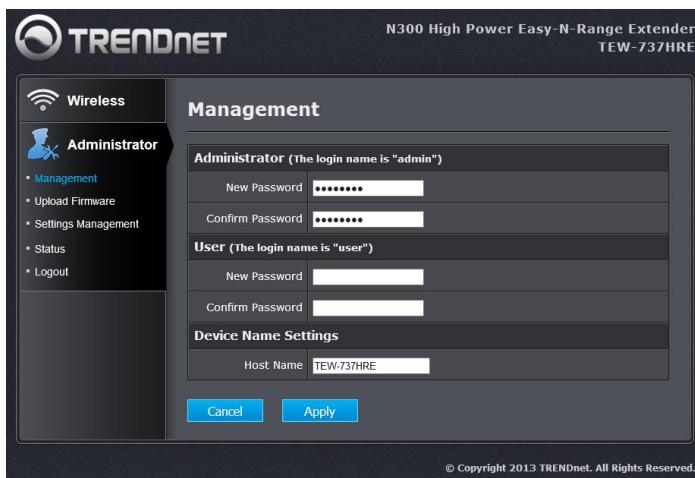

## Management

Click **Management** on the menu to change your administrator password, user password and device name.

**Administrator:** Administrator is authorized to change TEW-737HRE settings.

**User:** User is authorized to login and view TEW-737HRE settings, but not change them.

**Device Name:** The host name can be searched on the network. You can change the host name of the TEW-737HRE to another name.

## Upload Firmware

Click **Upload Firmware** on the menu to list associated wireless clients. TRENDnet may periodically release firmware upgrades that might add features or fix problems associated with your TRENDnet model and version. To find out if there is a firmware upgrade available for your device, please check your TRENDnet model and version using the link.

<http://www.trendnet.com/downloads/>

1. If a firmware upgrade is available, download the firmware to your Computer.
2. Unzip the file to a folder on your computer.
3. Log into the repeater (default <http://tew-737HRE>)
4. Click on **Administrator** and then **Upload Firmware**.
5. Click **Browse ...** and navigate to the folder on your computer in which the unzipped firmware file (.bin) is.
6. Located and select it the firmware file.
7. Click **Upload**.

## Settings Management

The screenshot shows the 'Settings Management' page. On the left is a sidebar with icons for Wireless, Administrator (selected), Management, Upload Firmware, Settings Management (highlighted in blue), Status, and Logout. The main area has four sections: 'Save Configuration Settings' with 'Save Settings' and a 'Save' button; 'Restore Configuration Settings' with 'Load Settings', a 'Browse...' button, and a 'Load' button; 'Restore Factory Default Settings' with 'Restore' and a 'Restore' button; and 'System Reboot' with 'System Reboot' and a 'Restart' button.

<b>Save Configuration Settings</b>	Click <b>Save</b> to export settings to your computer.
<b>Restore Configuration Settings</b>	To restore settings previously saved on your computer, click <b>Browse...</b> to select a configuration file and then click <b>Load</b> to import the previous settings.
<b>Restore Factory Default Settings</b>	Click <b>Restore</b> to restore settings to factory defaults.
<b>System Reboot</b>	Click <b>Restart</b> to reboot your TEW-737HRE.

## Status

Click **Status** on the menu to list the TEW-737HRE status details.

The screenshot shows the 'Status' page. On the left is a sidebar with icons for Wireless, Administrator (selected), Management, Upload Firmware, Settings Management, Status (highlighted in blue), and Logout. The main area has three sections: 'Device Information' (Firmware Version: 1.00, Repeater up time: 0 Day, 00:29:28); 'Wi-Fi Network' (Network Status: Disconnected, MAC Address: 02:18:, SSID: TRENDnet737, Security Mode: Disable, Channel Width: Auto 20/40 MHz, Channel: 11); and 'Extended Wi-Fi Network' (MAC Address: 00:18:, SSID: TRENDnet737, Connection: DHCP, IP Address: 192.168.10.100, Subnet Mask: 255.255.255.0, Gateway Address: 0.0.0.0, DNS: 0.0.0.0).

## Technical Specifications

<b>Wireless Modulation:</b>	OFDM and CCK
<b>Antenna :</b>	Built in antenna
<b>Frequency:</b>	2.412 - 2.462GHz FCC 2.412 – 2.472GHz ETSI
<b>Data Rate:</b>	802.11n: up to 300 Mbps (Auto Fallback) 802.11g: up to 54 Mbps 802.11b: up to 11 Mbps
<b>Output Power:</b>	802.11b: FCC: 20 dBm (typical), CE: 18 dBm (typical) @ 11 Mbps 802.11g: 18 dBm (typical) @ 54 Mbps 802.11n: 17 dBm (typical) @ 300 Mbps
<b>Receiving Sensitivity:</b>	802.11b: -90 dBm (typical) @ 11 Mbps 802.11g: -72 dBm (typical) @ 54 Mbps 802.11n: -66 dBm (typical) @ 300 Mbps
<b>Encryption:</b>	64/128-bit WEP, WPA / WPA2-PSK Channels 1-11 (FCC), 1-13 (ETSI)

*\*Maximum wireless signal rates are referenced from IEEE 802.11 theoretical specifications. Actual data throughput and coverage will vary depending on interference, network traffic, building materials and other conditions.*

## Troubleshooting

**Situation:** I typed <http://tew-737hre> but I am not able to access the unit. What should I do?

**Solution:**

The host name resolution is good for most systems, including Windows, OS X, and iOS. Please enter the IP address (default: 192.168.10.100) if you experience difficulty in accessing the range extender.

Proceed following steps for correct name resolution.

1. Turn the TEW-737HRE's power switch on.
2. Reset the device to factory default settings by pushing the reset button for 5 seconds.
3. Make sure you have a good wireless connection to the default SSID: **TRENDnet737** or connect to the TEW - 737HRE using a network cable.
4. Make sure your laptop/PC is not joined to any network domain.
5. Open a browser and type **http://tew - 737hre** (You must lead with **http://** to resolve the host name)

**Situation:** How do I reset the device to factory default?

**Solution:**

1. Use a pin such as a staple to press and hold the reset button at the bottom of the TEW-737HRE for 5 seconds.
2. You can also reset from the management page.

**Situation:** I typed <http://192.168.10.100> but I am not able to access the unit. What should I do?

**Solution:**

1. Turn the TEW-737HRE's switch on.
2. Reset the device to factory default settings by pushing the reset button for 5 seconds.
3. Make sure you have a good wireless connection to the default SSID: **TRENDnet737** or connect to the TEW-737HRE using a network cable.
4. Make sure your computer has no other network connections. For example, if you access TEW-737HRE through wireless, disconnect your Ethernet cable.
5. Open a browser and type <http://192.168.10.100>

**Situation:** How do I make sure my unit is connected to a router or an AP?

**Solution:**

The LED will turn solid green when the TEW-737HRE is successfully connected to a router or an AP.

**Situation:** How can I access the TEW-737HRE once it is setup?

**Solution:**

You can use its host name (<http://tew-737hre>) or IP address to access the TEW-737HRE. After repeater setup, the TEW-737HRE will get an IP address from your router (DHCP). Check the DHCP client list on your router if you want to access the TEW-737HRE with its IP address.

## Regulations

### Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### IMPORTANT NOTE:

#### ***FCC Radiation Exposure Statement***

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The availability of some specific channels and/or operational frequency bands are country dependent and are firmware programmed at the factory to match the intended destination. The firmware setting is not accessible by the end user.

## **Industry Canada**

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

### ***Radiation Exposure Statement:***

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

## Europe – EU Declaration of Conformity

TRENDnet hereby declare that the product is in compliance with the essential requirements and other relevant provisions under our sole responsibility.

REACH Regulation (EC) No. 1907/2006

This device is a 2.4 GHz wideband transmission system (transceiver), intended for use in all EU member states and EFTA countries, except in France and Italy where restrictive use applies.

In Italy the end-user should apply for a license at the national spectrum authorities in order to obtain authorization to use the device for setting up outdoor radio links and/or for supplying public access to telecommunications and/or network services.

This device may not be used for setting up outdoor radio links in France and in some areas the RF output power may be limited to 10 mW EIRP in the frequency range of 2454 – 2483.5 MHz. For detailed information the end-user should contact the national spectrum authority in France.

Česky [Czech]	TRENDnet tímto prohlašuje, že tento TEW-737HRE je ve shodě se základními požadavky a dalšími příslušnými ustanoveními směrnice 1999/5/ES, 2006/95/ES a 2009/125/ES.	relevante bepalingen van richtlijn 1999/5/EG, 2006/95/EG en 2009/125/EG.

Latviski [Latvian]	Šis tīkls ierīce ir gads enerģiju saistītiem rāžojumiem (ERP ou ar vēstuli) Automātiski pārslēdzas uz enerģijas taupīšanas gaidstāves modi laikā 10 minūšu laikā bez datu pārraides. Ja ierīce nav izmantota to var IKT powered leju, izmantojot barošanas pogu, vai vienkārši atvienojiet strāvas adapteris papildu enerģijas ietaupījumu. Networked gaidīšanas: 1.95vati Izsľēgts režīms: 0.14vati
Lietuvių [Lithuanian]	Šis tinklas įrenginys metus Energijos susiję produktai (ERP ou laišku) Automatiškai persijungia į energijos taupymo budējimo mados Per 10 minučių be duomenų perdavimo. Kai prietaisais nenaudojamas, jis gali būti išjungtas naudojant maitinimo

	<p>mygtuką, arba tiesiog atjunkite maitinimo adapterį sustaupytį dar daugiau energijos.</p> <p>Tinklo budėjimo: 1.95W</p> <p>Išjungimo būsena: 0.14W</p>		<p>Modo off: 0.14watts</p>
Nederlands [Dutch]	<p>Dit netwerkapparaat is jaar-energie gerelateerde product (ErP ou per brief) schakelt automatisch naar een energiebesparende stand-by mode Binnen 10 minuten geen gegevensoverdracht. Wanneer het apparaat niet in gebruik kan worden ict uitgeschakeld met behulp van uit-knop, of koppelt gewoon een oplader voor een extra energiebesparing.</p> <p>Networked standby: 1.95watt</p> <p>Off Mode: 0.14watt</p>	Slovensko [Slovenian]	<p>Ta mreža naprava je leto Energy Podobni izdelek (ErP ou dopisom), samodejno preklopi na varčevanje z energijo v stanju pripravljenosti moda roku 10 minut brez prenosa podatkov. Ko je naprava ni v uporabi, je lahko ict napaja navzdol z gumbom za vklop, ali pa preprosto odklopite napajalnik za dodatne prihranke energije.</p> <p>Networked pripravljenosti: 1.95W</p> <p>Način izklopa: 0.14W</p>
Malta [Maltese]	<p>Dan il-mezz netwerk huwa sena Energija Prodott Related (ERP ou b'ittra) Awtomatikament swičċijiet għal ifrankar ta' 'enerġija moda standby Fi żmien 10 minuta ta' l-ebda trażmissjoni tad-data. Meta l-mezz ma jkun qed jintuża jista' jiġi ICT powered isfel bl-użu buttuna l-enerġija, jew sempliċiment skonnettja l-adapter enerġija għal ifrankar addizzjonali tal-enerġija.</p> <p>Standby f'netwerk: 1.95watts</p> <p>Modalità Mitfja: 0.14watts</p>	Slovensky [Slovak]	<p>Toto siet'ové zariadenie je rok Energy Súvisiaci produkt (ErP ou listom), automaticky prepne do úsporného pohotovostného módu do 10 minút bez dátového prenosu sily. Ked' prístroj nepoužíva, možno ho ict vypnúť pomocou tlačidla napájania, alebo jednoducho odpojte napájací adaptér pre ďalšie úspory energie.</p> <p>Sieťové standby: 1,95W</p> <p>Off Mode: 0,14W</p>
Magyar [Hungarian]	<p>Ez a hálózat a készülék éves energiával kapcsolatos termék (ErP ou levélben), automatikusan átvált egy energiatakarékos készenléti mód 10 percen belül nincs adatátvitel. Ha a készülék nincs használatban, akkor lehet, IKT áramtalanítani a bekapcsoló gombot, vagy egyszerűen húzza ki a hálózati adaptort a tövábbi energia-megtakarítás.</p> <p>Hálózatba készenlét: 1.95watt</p> <p>Kikapcsolt üzemmód: 0.14watt</p>	Suomi [Finnish]	<p>Tämä verkkolaite on vuosi Energy Related Product (ErP ou kirjeitse) Automaattinen vaihto virransäästö valmiustilassa muoti 10 minuutin kuluessa tiedon siirto. Kun laite ei ole käytössä se voidaan ICT sammuttettu käytämällä virtakytkintä, tai yksinkertaisesti irrota virtalähde ylimääräisiä energiasäästöjä.</p> <p>Verkottunut valmiustilassa: 1.95wattia</p> <p>Pois päältä -tila: 0.14 wattia</p>
Polski [Polish]	<p>To urządzenie sieciowe jest rok energetyczna produktu związanego (ErP ou listownie) automatycznie przełącza się na energooszczędną gotowość modę W ciągu 10 minut bez transmisji danych. Kiedy urządzenie nie jest używane, można go ICT wyłączony za pomocą przycisku zasilania, lub po prostu odłączyć zasilacz na dodatkowe oszczędności energii.</p> <p>Networked standby: 1.95wattów</p> <p>Tryb wyłączenia: 0.14watów</p>	Svenska [Swedish]	<p>Denna nätverksenhets är år Energy relaterad produkt (ErP ou per brev) Växlar automatiskt till ett energisparande vänteläge mode Inom 10 minuter utan dataöverföring. När enheten inte används kan det vara ict avstängd med hjälp av strömbrytaren, eller helt enkelt koppla loss nätagttern för ytterligare energibesparningar.</p> <p>Networked standby: 1.95watt</p> <p>Avstängd: 0.14watt</p>
Português [Portuguese]	<p>Este dispositivo de rede é um Produto de Consumo de Energia (ErP) que alterna automaticamente para modo de espera com economia de energia após 10 minutos sem transmissão de dados. Quando o dispositivo não está sendo usado pode ser desligado no botão de energia, ou simplesmente desligando o adaptador de corrente para economia de energia adicional.</p> <p>Modo de espera em rede: 1.95watts</p>		

## Limited Warranty

TRENDnet warrants its products against defects in material and workmanship, under normal use and service, for the following lengths of time from the date of purchase.

- TEW-737HRE – 3 Years Warranty

If a product does not operate as warranted during the applicable warranty period, TRENDnet shall reserve the right, at its expense, to repair or replace the defective product or part and deliver an equivalent product or part to the customer. The repair/replacement unit's warranty continues from the original date of purchase. All products that are replaced become the property of TRENDnet. Replacement products may be new or reconditioned. TRENDnet does not issue refunds or credit. Please contact the point-of purchase for their return policies.

TRENDnet shall not be responsible for any software, firmware, information, or memory data of customer contained in, stored on, or integrated with any products returned to TRENDnet pursuant to any warranty.

There are no user serviceable parts inside the product. Do not remove or attempt to service the product by any unauthorized service center. This warranty is voided if (i) the product has been modified or repaired by any unauthorized service center, (ii) the product was subject to accident, abuse, or improper use (iii) the product was subject to conditions more severe than those specified in the manual.

Warranty service may be obtained by contacting TRENDnet within the applicable warranty period and providing a copy of the dated proof of the purchase. Upon proper submission of required documentation a Return Material Authorization (RMA) number will be issued. An RMA number is required in order to initiate warranty service support for all TRENDnet products. Products that are sent to TRENDnet for RMA service must have the RMA number marked on the outside of return packages and sent to TRENDnet prepaid, insured and packaged appropriately for safe shipment. Customers shipping from outside of the USA and Canada are responsible for return shipping fees. Customers shipping from outside of the USA are responsible for custom charges, including but not limited to, duty, tax, and other fees.

**WARRANTIES EXCLUSIVE:** IF THE TRENDNET PRODUCT DOES NOT OPERATE AS WARRANTED ABOVE, THE CUSTOMER'S SOLE REMEDY SHALL BE, AT TRENDNET'S OPTION, REPAIR OR REPLACE. THE FOREGOING WARRANTIES AND REMEDIES ARE EXCLUSIVE AND ARE IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, EITHER IN FACT OR BY OPERATION OF LAW,

STATUTORY OR OTHERWISE, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

TRENDNET NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME FOR IT ANY OTHER LIABILITY IN CONNECTION WITH THE SALE, INSTALLATION MAINTENANCE OR USE OF TRENDNET'S PRODUCTS.

TRENDNET SHALL NOT BE LIABLE UNDER THIS WARRANTY IF ITS TESTING AND EXAMINATION DISCLOSE THAT THE ALLEGED DEFECT IN THE PRODUCT DOES NOT EXIST OR WAS CAUSED BY CUSTOMER'S OR ANY THIRD PERSON'S MISUSE, NEGLECT, IMPROPER INSTALLATION OR TESTING, UNAUTHORIZED ATTEMPTS TO REPAIR OR MODIFY, OR ANY OTHER CAUSE BEYOND THE RANGE OF THE INTENDED USE, OR BY ACCIDENT, FIRE, LIGHTNING, OR OTHER HAZARD.

**LIMITATION OF LIABILITY:** TO THE FULL EXTENT ALLOWED BY LAW TRENDNET ALSO EXCLUDES FOR ITSELF AND ITS SUPPLIERS ANY LIABILITY, WHETHER BASED IN CONTRACT OR TORT (INCLUDING NEGLIGENCE), FOR INCIDENTAL, CONSEQUENTIAL, INDIRECT, SPECIAL, OR PUNITIVE DAMAGES OF ANY KIND, OR FOR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS, LOSS OF INFORMATION OR DATA, OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE SALE, INSTALLATION, MAINTENANCE, USE, PERFORMANCE, FAILURE, OR INTERRUPTION OF THE POSSIBILITY OF SUCH DAMAGES, AND LIMITS ITS LIABILITY TO REPAIR, REPLACEMENT, OR REFUND OF THE PURCHASE PRICE PAID, AT TRENDNET'S OPTION. THIS DISCLAIMER OF LIABILITY FOR DAMAGES WILL NOT BE AFFECTED IF ANY REMEDY PROVIDED HEREIN SHALL FAIL OF ITS ESSENTIAL PURPOSE.

**Governing Law:** This Limited Warranty shall be governed by the laws of the state of California.
