

The Megapixel HD PoE PTZ Internet Camera, model TV-IP672P, provides video monitoring over a large area. Pan the camera side-to-side a remarkable 340° and tilt up-and-down 115° from any Internet connection. No need to install this camera near a power source, power and data are received through a single Ethernet cable using Power over Ethernet (PoE) technology (See TRENDnet PoE Switches and Injectors).

Record 1280 x 800 Megapixel (WXGA) video at up to 30 frames per second (fps). Manage up to four video profiles to record HD video while streaming low resolution video to a compatible smart phone at the same time. Manage up to 32 TRENDnet cameras with the included complimentary camera management software. Advanced features include adjustable motion detection recording areas, email alerts, scheduled recording sessions, pan / tilt, Auto-Patrol, H.264 / MPEG-4 / MJPEG image compression, date-and-time overlays, a Micro-SD card slot for backup storage, two-way audio (speakers not included), an adjustable lens, and four times digital zoom. A wall / ceiling mounting kit is included and the camera's off white housing blends into most environments.
