

TW-100 **1-port Ethernet Internet Station**

The TW-100 is a IP address sharing device which allows your entire network to logon to the Internet with only one ISP account, and assigned IP address to all network users. The TW-100 is equipped with high-speed COM ports through which analog modems or ISDN terminal adapters can be attached. Through one modem, your entire network can access the Internet. It eliminates the need for a separate modem, phone line and phone charges for each individual user.

FEATURES

- ... Connect to the Internet via 10Base-T or 10Base-2 connections
- ... Supports Win3.x/95/98/NTTM, Netware™, Mac, OS/2, LANtastic, and many others
- ... Asynchronous WAN port supports up to 230.4Kbps data transfer
- ... Easy configuration through your Web browser
- ... Monitors communications link for inactivity and drops the connection. (user defined)
- ... Built-in firewall and secure gateway for LAN users
- ... 5 Year Warranty

BENEFITS

- ... **Integration Friendly:**
Designed to easily integrate into any Ethernet network.
- ... **Cost Effective:**
Saves router costs, on-line charges, and less expensive than owning a class C IP address.
- ... **Flexible:**
Can be used in either LAN or WAN and 10Base-2 or 10Base-T environments.
- ... **Security:**
Built-in firewall and secure gateway for LAN users.
- ... **Performance:**
Asynchronous WAN port supports up to 230.4Kbps data transfers.

TW-100

1-port Ethernet Internet Station

SPECIFICATIONS

Protocols:

- PPP(RFC1661), compression TCP/IP(RFC 1144), CHAP/PAP IP(791), ICMP(792), ARP(826), SNMP(1157), DHCP(1533,1541)

Security:

- PAP/CHAP(RFC1334), local password

Management:

- VT100,VT102, VT220 compatible terminal application via its RS-232 port.
- Internet Browser

LAN Port:

- 1 x 10Base-2 (BNC) and 1 x 10Base-T (RJ45) 10Mbps Connector type auto-sensing Ethernet interface

WAN Port:

- 1 x asynchronous port (male)

WAN Speed:

- 230.4Kbps Max. Speed

Weight:

- 142g / 5oz. (excluding power adapter)

Power Consumption:

- DC9v/500mA

Dimensions:

- 120mm x 86mm x 30mm (LxWxH)

LED:

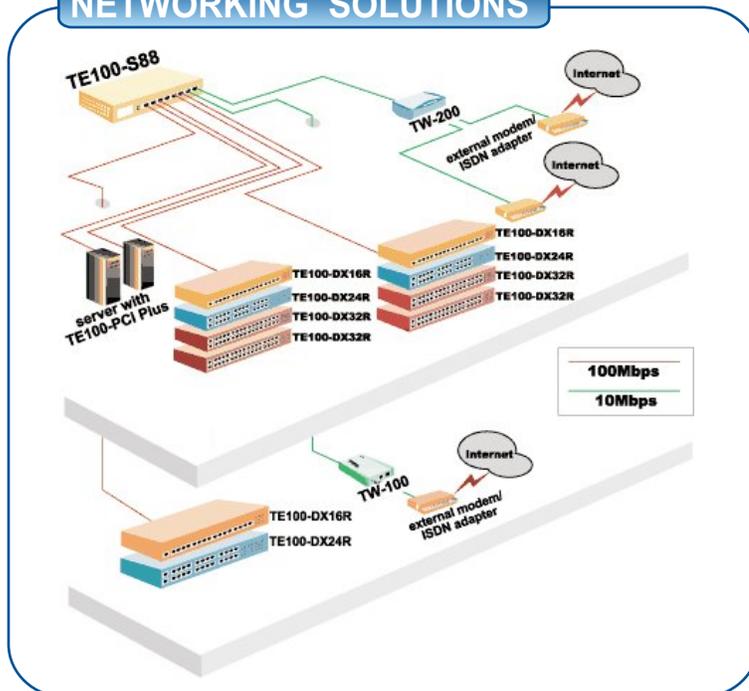

- Green—Link, Red—Error, one WAN ports for traffic

Certifications:

- FCC, UL, VCCI, CSA, C-tick, TUV, CE
