## Quick Installation Guide

---

### TWC-L10(V1)

# 1. Camera Installation

1. Release the latch to fully extend the TWC-L10.

2. Screw in the TWC-L10 into the Light fixture.
3. Push in the TWC-L10 to compress and lock it into place.

## App Download

Search for “ReadyView” on Google Play or App Store and download it to your mobile device.

Or scan the below QR Code to download the app:

Android

iOS

To view the installation video, please visit [www.trendnet.com/TWC-L10-install](http://www.trendnet.com/TWC-L10-install).

## Compatible Devices

iPhone: iPhone 5 or later models.

Android Phone: Android 4.4 or later versions.

Adding TWC-L10 on Android : Go to page 3

Adding TWC-L10 on iOS : Go to page 7

Adding another mobile device to TWC-L10 : Go to page 12

## App Device on Android

1. To add the camera, open the ReadyView app then tap ⊕ button.

2. Tap to select the appropriate LED Indicator status you see on the camera. For initial setup the default LED color is green.

### LED Indicator Color – Wi-Fi Status:

Green = Adding a new camera,  
camera not connected to network

Blue = Adding an installed camera to  
new mobile device. Camera connected  
to network (go to page 12)

LED Indicator Light

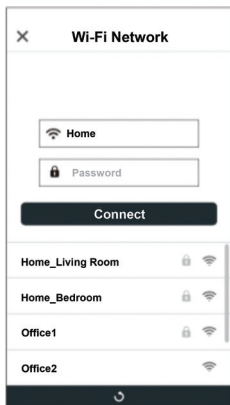

3. To add the camera enter the password, then tap “Next” to proceed.

### Note:

The default password is **888888**. If you forget your password, press the reset button on the device to restore factory settings.

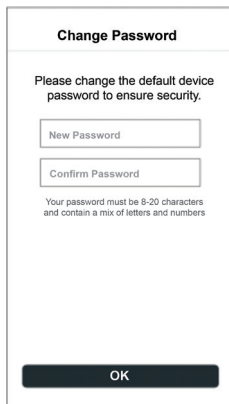

4. A list of nearby Wi-Fi networks will appear. Tap your Wi-Fi network from the list then enter your Wi-Fi password.

The screen is titled "Wi-Fi Network" with a close button (X) in the top left. It features two input fields: the first is labeled "Home" with a Wi-Fi icon, and the second is labeled "Password" with a lock icon. Below these is a dark "Connect" button. A list of networks follows: "Home\_Living Room", "Home\_Bedroom", "Office1", and "Office2", each with a lock icon and a Wi-Fi icon to its right. A refresh icon is at the bottom.

5. The TWC-L10 will prompt you to change the password from its default.

**Note:** It is required that you change the password from its default value.

The screen is titled "Change Password". It contains the instruction: "Please change the default device password to ensure security." Below this are two input fields: "New Password" and "Confirm Password". A note states: "Your password must be 8-20 characters and contain a mix of letters and numbers". A dark "OK" button is at the bottom.

6. Name your device then tap **Go to device** to return to the dashboard.

### Change Password

For security reasons, please enter a new password and re-enter to confirm

New Password

Confirm Password

Your password must be 8-20 characters and contain a mix of letters and numbers

OK

7. The dashboard screen will appear after setup has been completed.

**Note:** Go to Dashboard section for app features on page 14.

## Add Device on iOS

1. To add the device, open the **ReadyView** app then tap ⊕ button.

2. Tap to select the appropriate LED Indicator status you see on the camera. For initial setup the default LED color is green.

### LED Indicator Color – Wi-Fi Status:

Green = Adding a new camera,  
camera not connected to network

Blue = Adding an installed camera to  
new mobile device. Camera connected  
to network (go to page 12)
