Motorola Phone
Desktop

Your configuration is now complete.

For detailed information regarding the TBW-105UB configuration and
advanced settings, please refer to the User's Guide included on the Utility &
Driver CD-ROM or TRENDnet's website at www.trendnet.com

Troubleshooting

Q1: Windows is unable to recognize my hardware. What should I do?
A1: First, make sure your computer meets the minimum requirements as specified in Section 1 of this Quick Installation Guide. Second, you must install the Bluetooth utility BEFORE you physically install your Bluetooth Adapter. Third, plug the adapter into a different USB slot.

Q2: The Bluetooth software is unable to detect my Bluetooth-enabled device. What should I do?
A2: First, disable any software firewall programs such as ZoneAlarm or Norton Internet Security. If your have Windows XP installed on your computer, make sure to disable the built-in XP firewall. Second, make sure your Bluetooth device is powered on.

Q3: I cannot pair my Bluetooth device to the TBW-105UB USB Adapter. What should I do?
A3: First, make sure your Bluetooth device is powered on. Second, make sure that your Bluetooth device is in pairing mode. Third, make sure to put in the same **Bluetooth Security Code** on both devices.

Q4: I am not receiving 3Mbps data rate through the adapter. What should I do?
A4: In order to get the full data rate, your Bluetooth device must support Bluetooth v2.0 with Enhanced Data Rate (EDR)

If you still encounter problems or have any questions regarding the TBW-105UB, please refer to the User's Guide included on the Utility & Driver CD-ROM or contact TRENDnet's Technical Support Department.

Certifications
