4. Windows 98SE/ME/2000/2003 or Mac OS 10.1 or later

2. Product Detail/ Hardware Installation

Product Detail

The USB 2.0 2-Port CardBus Adapter has 2 high speed USB ports.

2 USB 2.0 ports for connecting external USB peripherals

Hardware Installation

1. Boot up your laptop PC and make sure Windows's Desktop is properly loaded.
2. Insert the TU2-H2PC into an available PC Card slot
3. Make sure the TU2-H2PC is inserted all the way to the end of the slot

4. Your laptop should emit a beeping sound that indicates newly installed hardware.
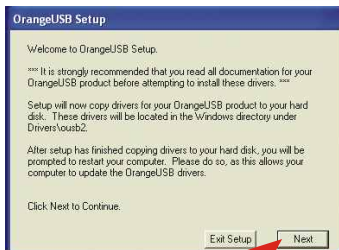

3. Driver Installation

Windows 98SE/ME/2000/XP/2003

After inserting the TU2-H2PC, the "Found New Hardware" will appear.
Windows will automatically detect and ask you to install the USB 2.0 Driver for
the TU2-H2PC.

> **NOTE:** Click the cancel button (this applies for Windows
> 98SE/ME/2000/XP) and install the USB Driver first as follow.

1. Insert the TU2-H2PC Driver CD-ROM into your computer's CD-ROM drive;
2. Double-click the **"My Computer"** icon on your Windows desktop.
3. Double-click the **"CD ROM"** drive, the **"Driver"** Folder, and the **"Windows"**
   Folder.
4. Double-click the file name **"setup.exe"** to install the USB 2.0 Driver for
   Windows.

Setup.exe

OrangeUSB Setup

Welcome to OrangeUSB Setup.

*** It is strongly recommended that you read all documentation for your
OrangeUSB product before attempting to install these drivers. ***

Setup will now copy drivers for your OrangeUSB product to your hard
disk. These drivers will be located in the Windows directory under
Drivers\ousb2.

After setup has finished copying drivers to your hard disk, you will be
prompted to restart your computer. Please do so, as this allows your
computer to update the OrangeUSB drivers.

Click Next to Continue.

Exit Setup   Next

Setup

Cancel

This installation was created with Installer VISE
from MindVision Software
http://www.mindvision.com

5. Click **Close** and restart the computer.

After your computer reboots, the "Found New Hardware" will appear. Windows ME/2000/XP/2003 will automatically detect and install a USB 2.0 driver for the TU2-H2PC.

> Congratulations!
> Installation is now complete.

NOTE: If you would like to verify that the TU2-H2PC has been installed properly for your windows, go to the Verify Installation section.

4. Verify Installation

1. Click **Start**, and then click **Control Panel**. For Windows 2000, click **Start**, highlight **settings**, and click **Control Panel**.
2. Double-click the System icon. On the Hardware tab, click **Device Manager** tab.
3. Expand the **"Universal Serial Bus controller"** heading to verify that the Universal Serial Bus controller has been installed.
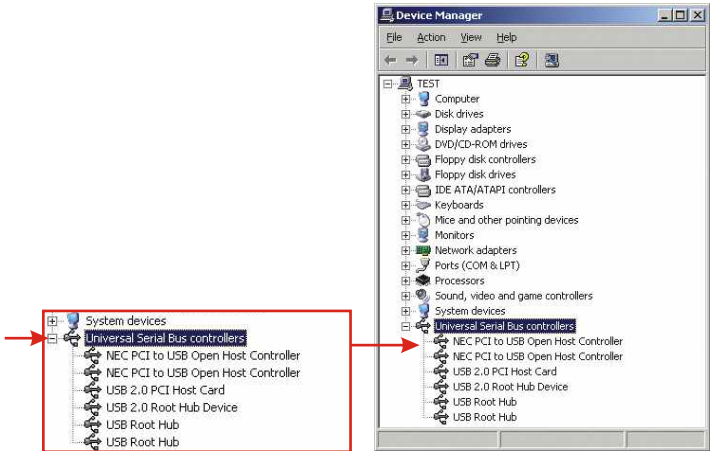

Troubleshooting

Q1. Can I connect or disconnect the USB cable while the computer is on?
A1. Yes, you can connect or disconnect the USB cable, or any external USB device while the computer is on, because the USB interface is Plug-and-Play and hot-pluggable.

Q2. I have a USB 1.1 cable. Can it work with USB 2.0 devices?
A2. Yes, it works but it may cause problems for connecting high-speed USB 2.0 external peripherals. Therefore it is recommended that you use certified USB 2.0 cable.

Q3. After successful installation of the TU2-H2PC 2-Port USB 2.0 CardBus PC card, I connected my external USB device to the USB port, but it doesn't seem to work. What should I do?
A3. If you have an external AC power adapter comes with the external USB device, connect the AC power adapter to the device and power on the device. Also make sure that you have installed the correct driver for your external USB device in Windows.

If you have any questions regarding the TU2-H2PC 2-Port USB 2.0 CardBus PC Card, please contact Trendware Technical Support Department.
