

## **TFM-560PCI** **56K (V.90) High Speed Internal Voice/Fax PCI Modem**

TRENDnet's TFM-560PCI Internal Voice/Fax PCI Modem gives users faster, more efficient Internet downloads. By a few mouse clicks, the TFM-560PCI Voice/Fax PCI Modem lets you get on-line with high speed. It is ultra fast with 56Kbps voice/fax capability and PCI interface that provide users with the highest possible data communication rates, reliable error-free transmission, and widespread interoperability with other users. The TFM-560PCI provides fast and easy installation with free communication software. Users can browse through more web sites faster now with TRENDnet's TFM-560PCI and your ordinary analog phone line for time and cost savings.

### FEATURES

- ... Intelligent Rockwell chipset supports 56K and V.90
- ... High Speed 56Kbps data download and 14.4Kbps fax communication
- ... Group 3 fax protocol/RS-232 interface
- ... Voice encoding and decoding/TAM functions § Industry standard protocol for data compression and error correction
- ... Compatible with Windows 95/98/NT 4.0 & 5.0 and Unimodem/V
- ... Free Voice/Fax/Data Communication Software
- ... 5 Year Warranty

### BENEFITS

- ... **User Friendly:**  
Easy installation and startup can be accomplished!
- ... **Speed:**  
The TFM-560PCI is capable of high speed V.90 56,000bps download speed.
- ... **Economical:**  
Provides low-cost connectivity to the Internet or corporate networks.
- ... **Affordability:**  
TRENDnet's TFM-560PCI completes voice, data, and fax set of standards.

## 56K (V.90) High Speed Internal Voice/Fax PCI Modem

### SPECIFICATIONS

#### Standards:

- ITU-T V.90, K56flex, V.34, V.32bis, V.32, V.22bis, V.22, V.23, and V.21, and Bell 212A/103

#### Error Correction:

- V.42LAPM/MNP Class 2-4

#### Data Compression:

- V.42bis, MNP Class 5

#### Command Set:

- V.25ter and EIA/TIA 602

#### Fax Command:

- T.31 Class 1

#### Voice Function:

- Caller ID, TAM and FDSP H.324, V.8/V.8bis, and AT commands
- V.80 Sync Access Mode supports host-controlled Communication Protocols

#### System Requirement:

- MMX compatible CPU, Pentium 200 or above is recommended
- 16MB RAM
- CD-ROM Drive

#### Certifications:

- FCC, CE
