	CPU	Memory	CPU	Memory
Windows 7 (32/64-bit) / Windows Server 2008 / Windows Vista (32/64-bit) / Windows Server 2003 / Windows XP (32/64-bit)	2GHz	2GB RAM or above	2GHz	4GB RAM or above

## SecurView Pro Installation

- 1. Insert the Utility CD-ROM into your CD-ROM drive.
- 2. Click Install SecurView Pro.

- 3. Select your language and then click OK.
- 4. Click next for all steps and then click Finish.
- 5. The server setup wizard will automatically run. Click next for all steps and then click Finish.
- 6. Double click the SecurView Pro icon on your desktop to open up the program.

### Add Cameras

- 1. Right click on the server in the structure pane as shown in the screen below.
- 2. Select Tasks and then click Automatically discover network video devices.

3. Follow the wizard instructions and then click Next.  ATTENTION! At this screen, hit enter to move cursor to third line. Input the user name followed by a comma and then input the password on the same line for your IP camera and then click Next. (On one line enter: Username, password)

Network Scan Credentials Optionally provide authorization credentials for the devices to be discovered	8
Please provide, if necessary, one or more user name and password pairs to attempt subtriction with a discovered device. Put one pair per line, separate user name and with a comma (). Press Next to proceed.	o use for paseword
