

TE100-H5E **5-Port 100Base-TX Ethernet Mini Hub**

Trends change faster than information traveling at 100Mbps. The 5-port TE100-H5E is a lasting trend that can easily be expanded using its uplink port for 100Base-TX Class II network growth. It has an external power supply which makes it an affordable networking solution and can easily be connected with up to five/eight work stations or servers.

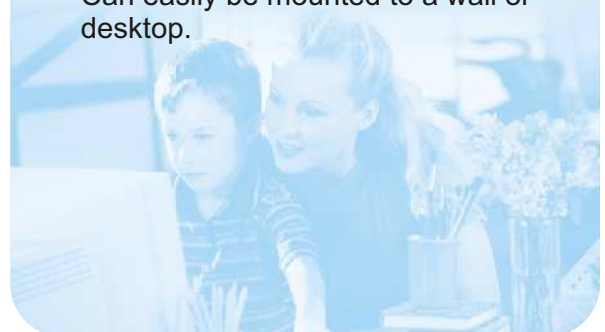

FEATURES

- ...➔ Supports five 100Base-TX ports per hub.
- ...➔ Uplink port provides easy expansion to another 100BaseTX Class II hub.
- ...➔ Can be installed using STP/UTP category 5 cabling systems.
- ...➔ Sturdy all metal housing.
- ...➔ Preamble regeneration, retiming incoming frames.
- ...➔ Status LED indicators for hub diagnostics and network utilization.
- ...➔ Port jabber and auto partition protection, data collision detection and handling.
- ...➔ 5 Year Warranty

BENEFITS

- ...➔ **Reliability:**
The TE100-H5E hub always provides 100Mbps network efficiency.
- ...➔ **Expandability:**
Uplink port for 100Base-TX Class II makes network expansion easy.
- ...➔ **Affordability:**
Advances network speed at a breakthrough price.
- ...➔ **Versatility:**
Can be installed using STP or UTP cabling.
- ...➔ **Convenience:**
Can easily be mounted to a wall or desktop.

TE100-H5E

5-Port 100Base-TX Ethernet Mini Hub

SPECIFICATIONS

Standards:

- IEEE 802.3u 100Base-TX standard

Cabling:

- EIA Category 5 STP/UTP

Size:

- 160 mm x 120 mm x 30 mm (L x W x H)

Ports:

- 5 RJ-45 100Base-TX

Power Consumption:

- 10W max.

Mounting Methods:

- Desktop

Emissions:

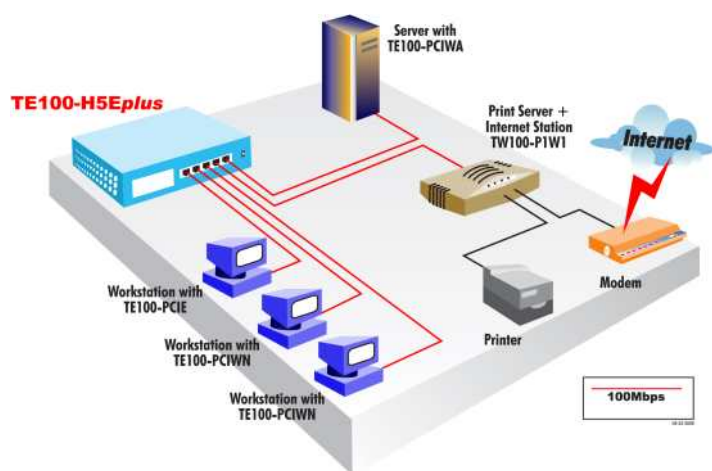

- FCC A, part 15 Class A

Certifications:

- UL, CSA, CE

NETWORKING SOLUTIONS

PRODUCT INFORMATION

- **TE100-H5E:** 5-port 100Base-TX Fast Ethernet Mini Hub
- **TE100-H8E:** 8-port 100Base-TX Fast Ethernet Mini Hub
- **TE100-SK1:** Fast Ethernet Starter Kit (2 x TE100-PCIW, 1 x TE100-H5E, 2 x 15' CAT 5 cables)
