5. Присоедините к USB-порту компьютера адаптер TEW-429UB Wireless USB.

3. Использование беспроводного адаптера

 Дважды щелкните по значку программы беспроводной связи в системном лотке.

2. Выберите обзор сайта - Site Survey, выполните обновление - Refresh и выберите нужную точку доступа. Щелкните по кнопке подключения -Connect.

3. Щелкните по кнопке ОК.

Установка завершена.

<u>Примечание:</u> Подробнее о дополнительных возможностях узнайте в Руководстве пользователя.

Q1: I completed all the steps in the quick installation guide, but my wireless USB Adapter isn't connecting to my access point. What should I do?

A1: First, you should verify that the Network SSID matches your wireless router or access point's SSID. Second, you should check your TCP/IP properties to ensure that Obtain an IP address automatically is selected. Third, you can click on the Site Survey link to check and see if there are any available wireless networks listed.

Q2: Windows is unable to recognize my hardware. What should I do?

A2: Make sure your computer meets the minimum requirements as specified in Section 1 of this quick installation guide. Also, you must install the wireless configuration utility (as described in Section 2) before connecting the wireless USB Adapter.

Q3: I cannot open the wireless configuration utility. What should I do?

A3: Go to your device manager (control panel \rightarrow system) to make sure the adapter is installed properly. If you see a networking device with a yellow question mark or exclamation point, you will need to reinstall the device and/or the drivers.

If you still encounter problems, please refer to the User's Guide CD-ROM or contact technical support.

Certifications

This equipment has been tested and found to comply with FCC and CE Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received. Including interference that may cause undesired operation.
