### Q: Where can I find the MAC address of my TEW-611BRP?

- A: The MAC Address is located on the bottom of the TEW-611BRP. Alternatively you can check by doing the following.
  - **Step 1.** Open your web browser and type the IP address of the TEW-611BRP in the address bar. The default IP address is 192.168.1.01. At the login, enter your username (admin) and leave the password field blank. There is no default password.
  - Step 2. Then click "Status".

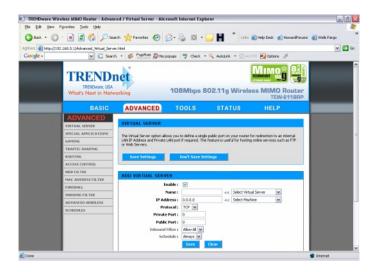

### Q: How do I forward ports in my router?

#### A: Well Known Ports

- **Step 1.** Open your web browser and type the IP address of the TEW-611BRP in the address bar. The default IP address is 192.168.1.01. At the login, enter your username (admin) and leave the password field blank. There is no default password.
- Step 2. Click on "Cancel" if the Setup Wizard comes up.
- **Step 3.** Click "**Advanced**" at the top of the page.

Step 4. Click "Virtual Server" on the left hand side.

- Step 5. If it is a "well known" port highlight the Service under the "Name" section.
- Step 6. Click "Enable".
- **Step 7.** Type the IP address of the computer that you want the port forwarded to. Or select it from the box.
- Step 8. Click "Save".

#### Custom Ports

- **Step 1.** Open your web browser and type the IP address of the TEW-611BRP in the address bar. The default IP address is 192.168.1.01. At the login, enter your username (admin) and leave the password field blank. There is no default password.
- Step 2. Click on "Cancel" if the Setup Wizard comes up.
- **Step 3.** Click "**Advanced**" at the top of the page.
- Step 4. Click "Gaming" on the left hand side.
