# Table of Contents

---

## **1 English**

1. Before You Start
2. Windows® OS Installation
3. Mac® OS Installation

# 1. Before You Start

---

## Package Contents

- TEW-805UBH
- Quick Installation Guide
- CD-ROM (Driver & User's Guide)

## Minimum Requirements

- Computer with USB 2.0 port or higher
- Operating System Compatibility:
  - Windows® 10 , 8.1, 8, 7
  - Mac OS® 10.9 or newer

## 2. Windows® OS Installation

1. Insert the included CD-ROM into your computer's CD-ROM drive.

**Note:** If you do not have a CD-ROM drive, you can download the drivers from <https://www.trendnet.com/support>

2. At the CD Autorun Prompt window, click Run Autorun.exe.

**Note:** If the Autorun prompt does not appear automatically, open the CD contents and double-click Autorun.exe.

3. At the CD-ROM main menu, click **Install Driver**.

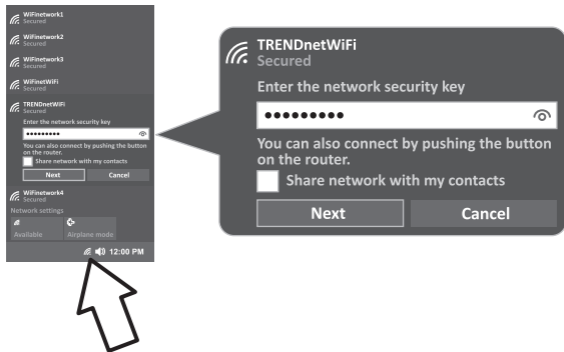

4. Follow the InstallShield Wizard instructions and restart the computer once the installation is complete. After the computer has rebooted, plug the TEW-805UBH into an available USB port on your computer.

5. Click on the wireless icon in the taskbar located in the bottom right corner.

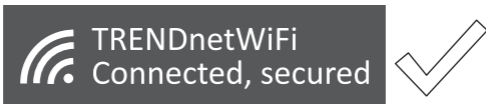

6. Select a wireless network, then enter the WiFi Key (password) and click **Next**.

7. The status will display “Connected” to indicate a successful connection.

**Note:** If the connected message does not display, double check your WiFi key (password) and re-enter it.

### 3. Mac® OS Installation

---

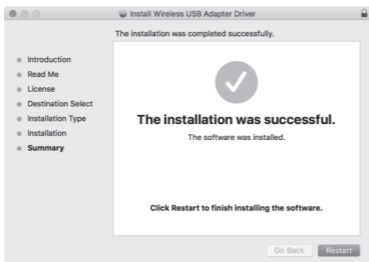

1. Go to <https://www.trendnet.com/support> to download the latest driver and double click to extract the files or you can access the files on the included CD.

**Note:** Mini CD's can only be read by an optical tray, using an optical slot can damage your computer.

2. After you have extracted the files, double click the **Installer.pkg** file and follow the steps.

3. After the installation is complete, you will be prompted to **Restart**.

4. After your computer has restarted, click on the wireless icon located in the menu bar at the top of your screen.

5. Select your wireless network.

6. Enter the WiFi key (Password) and click **Join**.

7. After you have successfully connected to your network the icon at the menu bar will change to the signal strength you have.

**Note:** If the connected message does not display, double check your Wi-Fi Key (Password) and re-enter it.

5V --- 900mA

Waste electrical and electronic products must not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or Retailer for recycling advice.

This device is restricted to indoor use

Applies to PoE Products Only: This product is to be connected only to PoE networks without routing to the outside plant.

## Note

The Manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

## Advertencia

En todos nuestros equipos se mencionan claramente las características del adaptador de alimentación necesario para su funcionamiento. El uso de un adaptador distinto al mencionado puede producir daños físicos y/o daños al equipo conectado. El adaptador de alimentación debe operar con voltaje y frecuencia de la energía eléctrica domiciliar existente en el país o zona de instalación.

## Federal Communication Commission Interference Statement

Any changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This device was tested for typical lap held operations with the device contacted directly to the human body to the back side of the notebook computer. To maintain compliance with FCC RF exposure compliance requirements, avoid direct contact to the transmitting antenna during transmitting.

## Body SAR

This product meets applicable national SAR limits of 1.6W/kg.

This specific maximum SAR values can be found in the section of this user guide. When carrying the product or using it while worn on your body, maintain a distance of 5 mm from the body to ensure compliance with RF exposure requirements.
