### Firmware Upgrade Procedures
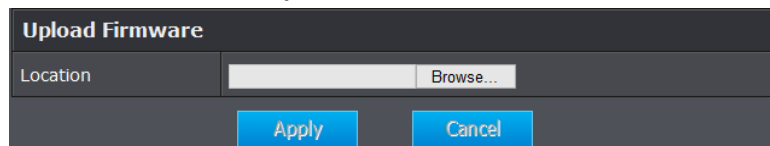

1. Save the downloaded firmware file to your PC
2. Right click on the downloaded file and select **Extract All** or **Extract Here** option
   a. Make sure to remember the location where the extracted file will be saved.
3. Log into to the router's configuration page (default IP is 192.168.10.1)
4. Click on the **Advanced** tab.

5. Click on the **Administrator** section and click on **Upload Firmware**.

6. Depending on your web browser, in the **Upload Firmware** section, click **Browse** or **Choose File**.

7. Navigate to the folder on your computer where the unzipped firmware file (*.bin*) is located and select it.
8. Click **Apply**. If prompted, click **Yes** or **OK**. Wait until the firmware upload completed and the device reboots.
9. To finalize the firmware update process you must reset the TEW-812DRU to factory default settings.
10. Log back into the TEW-812DRU, click on the **Advanced** tab. In **Administrator** section click on **Settings Management**. **Click Load Default** in **Load Factory Default** section.

   Note: You will need to reconfigure and access the router's management page using the predefined settings found on the side or bottom labels.
