Windows Vista (32/64-bit)	800MHz or above	512MB RAM or above
Windows XP (32/64-bit) / 2000	300MHz or above	256MB RAM or above

Important!
DO NOT install the TFM-561U in the computer until instructed to do so.

1. Connect the modem to an available USB 2.0 or
   1.1 port on the computer.

Found New Hardware

Windows needs to install driver software for your USB Modem

○ **Locate and install driver software (recommended)**
  Windows will guide you through the process of installing driver software for your device.

→ **Ask me again later**
  Windows will ask again the next time you plug in your device or log on.

○ **Don't show this message again for this device**
  Your device will not function until you install driver software.

Cancel

2. When the Add New Hardware Wizard or the
   Found New Hardware Wizard appears, click
   Cancel. (Windows Vista/XP/2000).

3. Insert Driver CD-ROM into your computer's
   CD-ROM drive.

AutoPlay

DVD/CD-RW Drive (D:)
TFM-561U

☐ Always do this for software and games:

Install or run program

Run setup.exe
Publisher not specified

General options

Troubleshooting

1. I inserted the Driver CD-ROM into my computer's CD-ROM Drive but the installation menu does not appear automatically. What should I do?
   1. For Windows 7, if the installation menu does not appear automatically, click on the Windows Icon on the bottom left hand corner of the screen,, click the "Search programs and files" box, and type D:\setup.exe, where "D" in "D:\setup.exe" is the letter assigned to your CD-ROM Drive, and then press the ENTER key on your keyboard.
   2. For Windows Vista, if the installation menu does not appear automatically, click Start, click the Start Search box, and type D:\setup.exe where "D" in "D:\setup.exe" is the letter assigned to your CD-ROM Drive, and then press the ENTER key on your keyboard.
   3. For Windows XP/2000, if the window does not appear automatically, click Start, click Run and type D:\setup.exe where "D" in "D:\setup.exe" is the letter assigned to your CD-ROM Drive, and then press the ENTER key on your keyboard.

2. I inserted the modem into my computer's USB port and my computer does not detect the modem? What should I do?
   1. Make sure the computer meets the minimum system requirements as shown at the beginning of this quick installation guide.
   2. Verify that the modem is properly inserted in the computer's USB port.
   3. Connect the modem into a different USB port.

3. After successful installation of the TFM-561U, I tried to connect to the Internet but I do not get a dial tone. What should I do?
   1. Unplug the telephone wire from the computer, and check for a dial tone by connecting the telephone cable directly from the wall outlet to a telephone. If there is no dial tone, then the problem is in your telephone cable or telephone system. Call your telephone service provider for assistance. If there is a dial tone, reconnect the cable to the modem and verify that the telephone cord is securely connected to the modem and phone jack.
   2. Make sure you are connecting the modem into an analog phone line. The modem will not work with a digital phone line.
   3. Contact your ISP and verify all the information that you have in regards to your Internet connection settings is correct.

4. Do I need to install the Netwaiting (Modem on Hold) or Classic Phone Tools software programs?
   The Netwaiting or Classic Phone Tools software programs are not required to operate the modem. To use Netwaiting, please refer to the user's guide included on the Driver CD-ROM. To use Classic Phone Tools, open the program and click on the Help button.

If you still encounter problems or have any questions regarding the TFM-561U, please refer to the User's Guide included on the Driver CD-ROM or contact TRENDnet's Technical Support Department.

Certifications

This equipment has been tested and found to comply with FCC and CE Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received. Including interference that may
cause undesired operation.

Waste electrical and electronic products must not
be disposed of with household waste. Please
recycle where facilities exist. Check with you Local
Authority or Retailer for recycling advice.
