TRENDnet's 6-Port Industrial Gigabit PoE+ Wall-Mounted Front Access Switch, model TI-PG62F, is well suited for IP surveillance, IoT, and automation networks for homes and businesses. This hardened industrial gigabit flat switch provides front access to ports and power interfaces for easier installation. The flat and compact size make them ideal for cabinet installations where space is limited. The 6-port industrial switch features four gigabit PoE+ ports for connecting devices, such as wireless access points, IP cameras, and IoT appliances, and two SFP ports for long distance fiber network connections. This hardened front access switch comes equipped with an IP50 rated metal enclosure, designed to withstand a high degree of vibration and shock, while operating within a wide temperature range of -40° – 75° C (-40° – 167° F) for industrial environments.
