PoE

Power

Switch

Internet

• Connect the provided network cable from the Power over Ethernet switch (e.g. TPE-S50) to the network port on the IP Camera.

• Connect the switch to your network.

Mounting the camera

<u>Note</u>: For tips on capturing appropriate camera viewing angle, please refer to the user's guide.

1. Loosen the adjustable nut and manually position the camera as desire.
2. Place the provided template label on the wall or ceiling.

Ceiling Mounting
⊕ Hole   ⊕ Hole

⊕ Hole

3. Drill holes at each marked position on the template. Make sure the drill bit matches the size of the holes on the template.

4. Insert the provided screw anchors into the holes.

5. Insert the cables through the hole in the wall or ceiling.

6. Align the mounting bracket with the screw anchors, and then use the provided screws to secure the camera to the mounting surface.

7. Manually adjust the zoom and focus. Using the free app, confirm the zoom and focus matches installation requirements.
