8. Now you can access the camera's configuration page for Live view and additional settings. For more details, please refer to the User's Guide.

9. Scan the QR code below to download a free mobile app to view the camera from your IOS or Android device. Please refer to the quick install guide for instructions on how to setup your camera in the app from your cameras download page at www.TRENDnet.com.

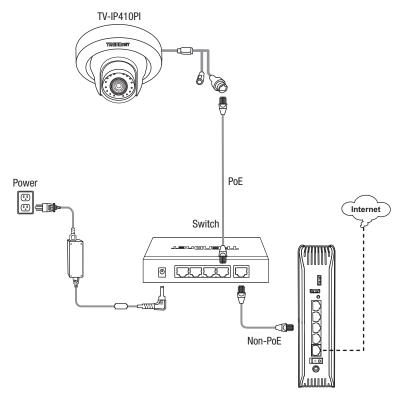

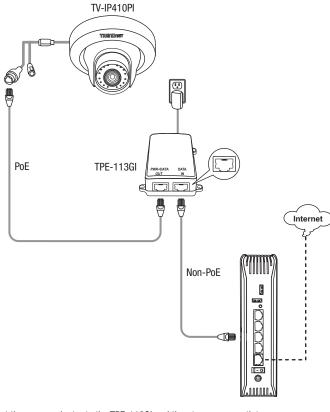

Android

iOS

Note

• See User's Guide for advanced management functions
• When viewing live video, you may be required to install plug-ins.

10. Install the camera in your desired location. To connect the IP camera to your network with PoE, please use either of the following examples:

Using the TV-IP410PI with a PoE switch (TPE-S80)

TV-IP410PI

Power

PoE

Switch

Internet

Non-PoE

- Connect the provided network cable from the Power over Ethernet switch (e.g. TPE-S80) to the network port on the IP Camera.
- Connect the switch to your network.

Mounting the camera

Note:

- Before mounting the camera, the lens must be manually positioned and focused.
- For tips on capturing appropriate camera viewing angle, please refer to the user's guide.

1. Loosen the adjustable nut and manually position the camera as desired.

2. Place the provided template label on the mounting surface.

3. Drill holes for the provided screw anchors at each marked position on the template. Make sure the drill bit matches the size of the provided screw anchors.

4. Insert the provided screw anchors into the holes.

5. Align the mounting bracket with the screw anchors, and then use the provided screws to secure the camera to the mounting surface.
