Camera List

TV-IP762IC

- After the camera has been added, CloudView will return to the Camera List screen. Repeat steps 1-10 to add more cameras.

TRENDnet®

View Video

1

• Tap the desired **Camera**.

2

• Video will appear in portrait mode. The function toolbar will be located below the video.

3

• Rotate the iPhone horizontally to view the video in landscape mode.

4

• Pinch the screen to zoom in and zoom out.

5

• In landscape mode, tap the screen to bring up the function toolbar.

6
• Above is the function toolbar. Buttons include: pan and tilt, snapshot, enable/disable microphone, enable/disable speaker, resolution, settings (profile and audio), refresh and information. If the button is greyed out, the IP camera does not support that function.

TRENDnet®

Local Camera Setup

Note:
• Before proceeding, you must establish a wireless connection to the network where your IP cameras are installed.
• This method will not allow you to see video while away from your local network. Remote camera setup is recommended.
